Experience

Frontend Developer Internship   April 2023 - Current
Frontend Simplified

- Transformed a completely static HTML, CSS, JavaScript and React single page application into an interactive user interface using animations, transitions and carousels
- Processed API requests with Axios to dynamically represent data from a cloud server and represented it through skeleton loading states, pagination and dynamic routing
- Utilized Git version control and the GitHub interface to work and thrive in a virtual and collaborative team environment

Freelance Frontend Developer   April 2023 - Current
Self Employed

- Delivered professional websites using HTML5, CSS3 (+ SCSS, BEM), JavaScript and React best practises
- Improved website performance by compressing, caching and lazy loading images and components
- Included SEO, responsive, multi-platform and hosting support, enabling their website to be used by any browser or device in the world

Frontend Developer Support   February 2023 - Current
Frontend Simplified

- Supported 1,000+ students using HTML, CSS, Flexbox, JavaScript and React best practises
- Utilized debugging best practises using Google Chrome inspect element tooling
- Simplified difficult programming concepts including responsive website development, CSS layout, Promises and API requests

Projects

Personal Website | *HTML, CSS, JavaScript* **| Website**
- Made personal E-portfolio website implemented with nice animation.
- Features of dark mode, loading states with responsive app design and email option in features.

E-Portfolio Template | *HTML, CSS* **| Website**
- Website is a static E-portfolio Template that I have created for a client.
- It is created with HTML and CSS best practises and has a completely responsive design as well as outstanding animations.
